

# SZÁSZ EVELIN

## UI / UX DESIGNER

## EXPERIENCE

### Quizzical – Browser-Based Trivia Game

- Designed an engaging and responsive trivia game in collaboration with a developer
- Defined the information architecture, user flows, and wireframes to enhance usability
- Created high-fidelity prototypes and established a style guide to ensure visual consistency

### Thriftstudio – E-Commerce Website

- Led the UI/UX design process for a fictional thrift store, collaborating closely with a developer to bring the design to life
- Conducted user research, competitive analysis, and usability testing to refine the experience
- Designed an intuitive admin interface for efficient inventory management
- Developed a cohesive visual identity, including logo, color palette, iconography, and typography

### Rock, Paper, Scissors – Desktop Browser Game

- Designed the game interface, ensuring a seamless and engaging user experience
- Created a visual identity, including logo, typography, and game assets
- Developed intuitive user interactions for a smooth gaming flow
- Worked closely with a developer to translate design concepts into a functional game
