EVELIN SZÁSZ

UI / UX DESIGNER

EXPERIENCE

2024 | UI/UX Designer – Quizzical (Personal Project)

- Designed an engaging and responsive trivia game in collaboration with a developer
- Defined the information architecture, user flows, and wireframes to enhance usability
- Created high-fidelity prototypes and established a style guide to ensure visual consistency

2023 | UI/UX Designer – Thriftstudio (Personal Project)

- Led the UI/UX design process for a fictional e-commerce thrift store, collaborating closely with a developer to bring the design to life
- Conducted user research, competitive analysis, and usability testing to refine the experience
- Designed an intuitive admin interface for efficient inventory management
- Developed a cohesive visual identity, including logo, color palette, iconography, and typography

2012 - 2017 | Freelance Stage and Costume Designer

- Conceptualized and designed costumes, stage settings, and promotional posters for various productions
- Applied strong visual expression, storytelling, and design fundamentals, with expertise in color theory, composition, and cohesive aesthetics
- Collaborated closely with directors, actors, and creative teams to bring artistic visions to life
- Conducted in-depth research on historical periods, cultural contexts, and design trends to inform creative decisions
- Managed projects independently from concept to final execution, balancing creativity with practical constraints and tight deadlines.
- Strengthened attention to detail, organization, and user/audience-focused thinking
